Forward

This budget aligns all expenditures with their appropriate revenue sources. It contains itemized accounting of revenues and expenses for two organizational divisions conducting work within three Operational Areas (OA); Base Operations, Grant Operations, and Enterprise Operations. Outlined below is the work plan for each area.

1.0 Purpose

This work plan defines the work to be accomplished and the resources needed to accomplish that work for the coming fiscal year.

2.0 Plan Elements

The plan contains the following elements for action required to determine what work should be done and how it will be funded:

- 2.1 Identify the Operational Area;
- 2.2 Identify the work programs to be carried out in each area;
- 2.3 Assign a level of importance (High, Medium or Low) to each work program;
- 2.4 Estimate resources required to accomplish the work, based on historical data and predictable future costs of salaries, supplies, services, and capital outlay;
- 2.5 Identify available revenues designated to fund the resources, per program;
- 2.6 Identify any programs which have shortfalls in revenue; and
- 2.7 Supplement designated revenues for programs which are underfunded, and/or eliminate work, to assure the most important work programs are fully funded.

3.0 Work Programs

Work programs carried out in the three operational areas are funded by specific funding sources. In accordance with Chapter 70.94.092 Revised Code of Washington (RCW), any remaining funds needed to meet budgetary expenditures shall be designated as “supplemental income” and shall be obtained from the component cities, towns, and county
